Everything Goes Dance Studio proudly partners with Cardinale-Powell Photography to offer yearly professional photos to its dancers. Please note that scheduled photo times will replace the regular class time of the student for that day. If photos are not scheduled, then regular class will be held. All students must participate in group photos, but if a student wishes to take an individual photo, the parent/guardian must purchase a photo package at the time the photo is taken, no exceptions. Photos will be available to pick up during our recital rehearsal and performance. Please take a look at our list of do's and don'ts for photo week...

Do...

-Check your email or stop by the front desk about costume details prior to photo weeks. Each instructor has provided a detailed list of hairstyle, makeup, shoes, tights, etc for each class for you to look over. We have emailed out a google document link with all this information.

-Arrive at least 30 minutes to an hour before your scheduled photo time with hair and makeup ready.

-Make sure tights & shoes are clean and all costume/hair accessories are accounted for.

-Check in at the photo table when you arrive at the studio. They will give you a number, as well as any payment paperwork you may need in order to purchase your photos.

-Have patience during the picture week process. We want to make sure every dancer looks & feels their best in their photo, and sometimes that takes a bit longer than the allotted time! We really appreciate your cooperation and understanding on those days.

Don't...

-Wear nail polish, visible undergarments, or jewelry (unless it is part of your costume).

-Be late!

-Eat and Drink in your costume! Bottled water only, please.

-Worry about providing your child with a pose! Our instructors will be in charge of leading everything in that regard and will work with the photographer to provide the best possible photo for you to cherish!

- Don't forget the mascara, bobby pins, safety pins, and hairspray!
